

Expression of Interest e-Health

Benefits to GPs

- Refer electronically to St.Vincent's Hospital and Clinic
- Receive electronic admission & discharge notifications and discharge summaries from St.Vincent's Hospital's and Clinic
- More timely and accurate information reducing your need to chase up the hospital and clinics looking for information
- Share health summaries with ease to collaborate with other care providers, continue care for your patients.

Do you find it difficult to coordinate care for patients who visit St.Vincent's Hospital's and Clinic?

South Eastern Sydney Division of General Practice in partnership with St. Vincent's and Mater Health is implementing a ehealth project. This project will enable GPs to electronically refer into the St.Vincent's Hospital and Clinic and to receive electronic information back about patients.

The project scope includes the sharing of health summaries electronically between care providers.

This is to further support General Practice with requisite patient information to continue care, facilitate collaboration among acute and primary health care providers, and better engage patients in their own care.

To register your interest please fill in your details and fax back to SESDGP on (02) 9663 5817, or email: admin@sesdgp.com.au or call: (02) 9663 5958.
