

# How to.....HMR

**HOME MEDICINES REVIEW** is a service offered to you by your general practitioner and your community pharmacy.

If you are taking many medicines or are confused about why you are taking your medicines, talk to your general practitioner about having a **HOME MEDICINES REVIEW**.

**HOME MEDICINES REVIEW** is a service that is consumer focused featuring:

- GP referral to the community pharmacy of the patient's choice
- Pharmacist interview with the consumer, preferably in the consumer's home
- Written report that's given to the GP
- Discussion between the GP and the consumer to devise a future management plan incorporating any changes

By detecting and addressing medication-related problems through this collaborative approach between the GP and the pharmacist, **HMR** can improve the patient's **knowledge and understanding** of their medicines and help consumers gain **optimal use from their medicines**.

# How to.....HMR

I'm taking a lot of medicines, and I'm worried they may cause problems

HMR may help

Ok

HMR is free

Take this to your pharmacy

Thanks

Come back in a month

PRESCRIPTIONS

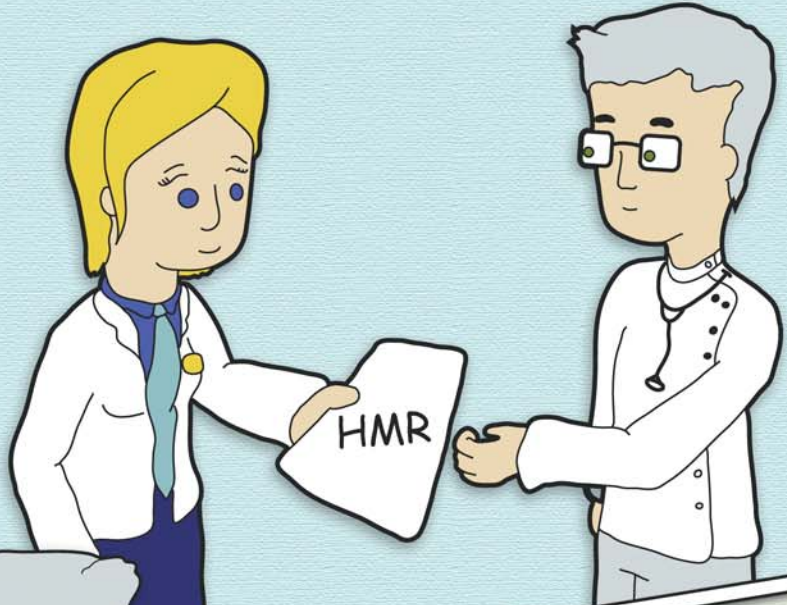

Do you do HMR?

Yes, we do!

When can the pharmacist visit your home?

Griffith Graphics - www.griffith.net

HMR

Come on in

WELCOME

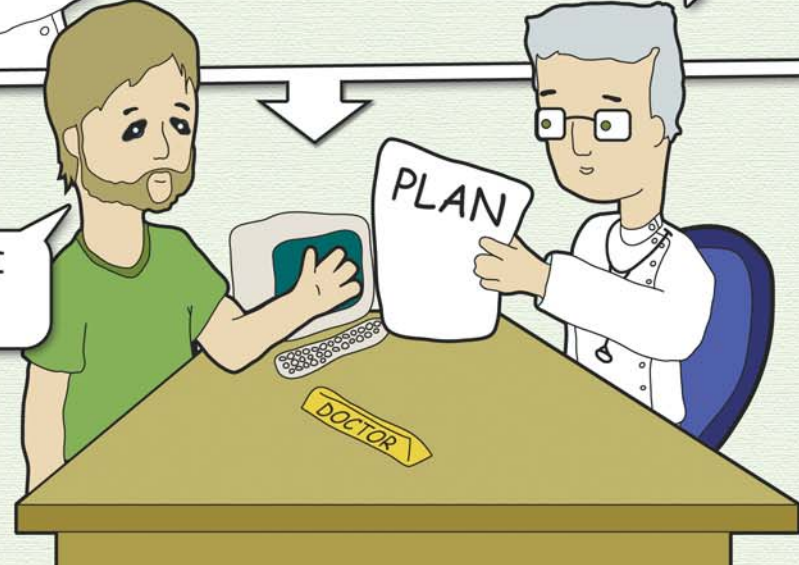

This is what I take

I think we can make some good changes

That's what I need. And it was free!
