

Pacnet Introduces ADSL2+ Super-fast and super-reliable

To meet the growing broadband demands of Australian businesses Pacnet have launched ADSL2+ high speed broadband services.

Pacnet has partnered with Telstra to provide a range of ADSL2+ products utilising the countries largest ADSL2+ network spanning over 1400 exchanges and able to reach 16.6 million businesses and households nationwide. Telstra was selected as Pacnet's exclusive ADSL2+ partner because of its depth of coverage and flexibility in national delivery of a wide range of DSL services.
