

THE AUSTRALIAN ASSOCIATION FOR EXERCISE AND SPORTS SCIENCE GP REFERRAL FORMS NOW AVAILABLE

The Australian Association for Exercise and Sports Science (AAESS) has created an electronic GP referral form which is compatible with medical software including: Best Practice and Medical Director so you can auto-populate fields with patient information. http://www.aaess.com.au/index.php?q=general_practice or go to www.sesdgp.com.au

Why refer to an Accredited Exercise Physiologist (AEP)? Accredited exercise physiologists (AEPs) are differentiated from other allied health professionals by their extensive knowledge, skills and experience in delivering safe, effective clinical exercise programs. AEPs also assist patients with changing unhealthy risk factors, such as inactivity to prevent the onset of chronic disease.

To locate an Accredited Exercise Physiologist in a particular area (suburb/postcode) or to obtain a list of AEPs in a particular division you just go to www.aaess.com.au and click on the map of Australia to 'Find and Exercise Physiologist'

AEP's located within the SESDGP identified by the AAESS are:

Mr Chris Tzar UNSW LIFESTYLE CLINIC 38 Botany Street, RANDWICK, NSW, 2031	Ph. 9385 2064 fax: 9385 3195 ifestyleclinic@unsw.edu.au www.lifestyleclinic.net.au
